RPM Apps Workshop Knowledge Check

119 questions · 27 True/False · 92 multiple choice

Difficulty target: 5 / 10 · materials-allowed

Delivery: 10 random questions per attempt · pass = 8 of 10

Section	Range	Questions
Suite / TAWA / Application Framework	3001–3017	17
Territory & Quota	3018–3051	34
Account Segmentation & Scoring	3052–3072	21
Go-to-Market Capacity Planning	3073–3093	21
Sales Forecasting (incl. AI Prediction Lab)	3094–3107	14
Cross-app & Reference	3108–3119	12

Correct answers are **highlighted in green with a checkmark**. True/False questions show 2 options; multiple-choice questions show 4. Wrong distractors are intentionally close-to-correct to test understanding rather than guessing.

Suite / TAWA / Application Framework

Q3001 · True / False

True or False: The RPM Apps suite consists of four applications — Territory & Quota, Account Segmentation & Scoring, Go-to-Market Capacity Planning, and Sales Forecasting.

- **T.** ■ **True**
- **F.** o False

Q3002 · Multiple Choice

Which RPM application primarily answers the question "what is each rep on the hook for"?

- **A.** o Sales Forecasting
- **B.** o Go-to-Market Capacity Planning
- **C.** ■ **Territory & Quota**
- **D.** o Account Segmentation & Scoring

Q3003 · Multiple Choice

Which RPM application primarily answers "which accounts matter and why"?

- **A.** ■ **Account Segmentation & Scoring**
- **B.** o Sales Forecasting
- **C.** o Territory & Quota
- **D.** o Go-to-Market Capacity Planning

Q3004 · Multiple Choice

Which RPM application primarily answers "do we have enough headcount with the right ramp to cover the plan"?

- **A.** o Account Segmentation & Scoring
- **B.** ■ **Go-to-Market Capacity Planning**
- **C.** o Sales Forecasting
- **D.** o Territory & Quota

Q3005 · Multiple Choice

Which RPM application primarily answers "what are we actually going to land this quarter, and where are the risks"?

- **A.** o Account Segmentation & Scoring
- **B.** o Go-to-Market Capacity Planning
- **C.** o Territory & Quota
- **D.** ■ **Sales Forecasting**

Q3006 · True / False

True or False: T&Q, Account Segmentation, and Capacity Planning are each delivered via a configurator UI, while Sales Forecasting V1 is delivered as a templated application via the Anaplan Application Framework.

- **T.** ■ **True**
- **F.** ○ False

Q3007 · Multiple Choice

Account Segmentation outputs flow downstream into which two other RPM apps?

- **A.** ○ Capacity Planning only
- **B.** ○ Territory & Quota only
- **C.** ■ **Territory & Quota and Capacity Planning**
- **D.** ○ Sales Forecasting and the Anaplan Data Orchestrator

Q3008 · True / False

True or False: Sales Forecasting consumes account segments from the Segmentation app as the attainment denominator on the Leaderboard.

- **T.** ○ True
- **F.** ■ **False**

Q3009 · Multiple Choice

The Anaplan Way for Apps (TAWA for Applications) is built around what core delivery idea?

- **A.** ○ Configure the entire customer model in a single one-day workshop
- **B.** ■ **Start with a baseline configured application, then identify and build extensions iteratively**
- **C.** ○ Use only standard objects with no extensions ever allowed
- **D.** ○ Build every application from scratch on every implementation

Q3010 · True / False

True or False: In TAWA, the "Application-Led Design" phase happens BEFORE the baseline application has been configured.

- **T.** ○ True
- **F.** ■ **False**

Q3011 · Multiple Choice

The Anaplan Application Framework solves which strategic problem?

- **A.** ○ Lack of trained model builders in the partner ecosystem
- **B.** ○ Poor data quality in customer source systems
- **C.** ○ Insufficient workspace capacity
- **D.** ■ **Upgradability and Applications as a Service**

Q3012 · Multiple Choice

The Application Framework has five key characteristics. Which of the following is NOT one of them?

- **A.** o Configure
- **B.** ■ **Integrate**
- **C.** o Package
- **D.** o Version

Q3013 · True / False

True or False: The Anaplan Data Orchestrator (ADO) is the recommended strategic direction for integration in V2/V3 of the RPM apps, replacing the legacy data hub pattern.

- **T.** ■ **True**
- **F.** o False

Q3014 · Multiple Choice

What does the "Deploy" characteristic of the Application Framework enable a builder to do?

- **A.** o Bundle models, apps, and integrations into a use case package
- **B.** o Modify the application within defined boundaries
- **C.** o Track and offer new versions of the application
- **D.** ■ **Push the application to the customer tenant to kick off setup**

Q3015 · Multiple Choice • Select multiple

Which of the following are the five key characteristics of the Anaplan Application Framework? (Select 5)

- **A.** ■ **Deploy**
- **B.** ■ **Package**
- **C.** o Integrate
- **D.** ■ **Version**
- **E.** o Optimize
- **F.** ■ **Configure**
- **G.** ■ **Upgrade**

Territory & Quota

Q3016 · Multiple Choice • Select multiple

Which of the following RPM apps are delivered via a configurator UI (as opposed to a templated application)? (Select 3)

- **A.** ○ Integrated Financial Planning (IFP)
- **B.** ■ **Go-to-Market Capacity Planning**
- **C.** ■ **Territory & Quota**
- **D.** ■ **Account Segmentation & Scoring**
- **E.** ○ Sales Forecasting
- **F.** ○ Anaplan Workforce Planning (OWP)

Q3017 · Multiple Choice • Select multiple

Which of the following are pre-flight prerequisites every RPM implementation needs in place before configurator runs can begin? (Select 2)

- **A.** ○ A chosen Forecaster algorithm
- **B.** ■ **A sales hierarchy with employees at the leaf level**
- **C.** ○ An ICM target system selected
- **D.** ○ CoModeler enabled on the workspace
- **E.** ○ Salesforce Connector configured
- **F.** ■ **The customer's GTM hierarchy data prepared and validated**

Q3018 · Multiple Choice

What is the single core question Territory & Quota is designed to answer?

- **A.** ○ Which deals are at risk of slipping
- **B.** ○ How many reps do we need to cover the territory
- **C.** ■ **What is each rep's quota, and how is it calculated**
- **D.** ○ Which accounts have the highest potential value

Q3019 · True / False

True or False: T&Q's quota outputs stay internal to Anaplan — they are not typically pushed to downstream systems like Incentive Compensation Management (ICM).

- **T.** ○ True
- **F.** ■ **False**

Q3020 · Multiple Choice

What is the canonical T&Q quota calculation pattern?

- **A.** ■ **Base Target × Assignment % × Ramp Factor**
- **B.** ○ Region GDP × Market Share × Growth Rate
- **C.** ○ Account Potential × Coverage Ratio × Headcount
- **D.** ○ Pipeline × Win Rate × Forecast Category

Q3021 · Multiple Choice

What is CoModeler used for during the T&Q model review?

- **A.** ■ **Generating line item dictionaries and explaining formula logic in natural language**
- **B.** o Generating SQL queries against the Anaplan model
- **C.** o Replacing the Anaplan model with a Python equivalent
- **D.** o Connecting the model to Salesforce automatically

Q3022 · True / False

True or False: CoModeler is enabled on every Anaplan tenant and workspace by default.

- **T.** o True
- **F.** ■ **False**

Q3023 · Multiple Choice

If a single rep covers multiple territories at different assignment percentages, which module consolidates their quota for downstream ICM export?

- **A.** o SYS Target Allocation
- **B.** ■ **The Calc Quota by Quota Types consolidation module**
- **C.** o SYS Account Assignment
- **D.** o SYS Resource Assignment

Q3024 · True / False

True or False: The DCA modules in T&Q control which users can edit which data and are critical to a working approval flow.

- **T.** ■ **True**
- **F.** o False

Q3025 · Multiple Choice

The "Custom Ramp Profiles" T&Q extension is most often driven by which customer condition?

- **A.** ■ **Different geographies (e.g. APAC vs EMEA) have materially different ramp times**
- **B.** o The customer is on a non-Salesforce CRM
- **C.** o The customer's hierarchy uses positions instead of employees
- **D.** o CoModeler is unavailable on the tenant

Q3026 · Multiple Choice

What is the primary purpose of the SYS Resource Assignment module?

- **A.** o Track top-down target cascade
- **B.** ■ **Map reps to territories with effective dates**
- **C.** o Map accounts to territories
- **D.** o Calculate the rep's quota

Q3027 · True / False

True or False: The T&Q Spoke App map view (geo mapping) is primarily a Finance-facing dashboard intended for the CFO and CFO-staff reporting.

- **T.** o True
- **F.** ■ **False**

Q3028 · Multiple Choice

During the T&Q post-generation phase, what should an implementer verify FIRST?

- **A.** o Set up CoModeler for the customer
- **B.** ■ **That the base model is correct before performing data loads**
- **C.** o Run the configurator lab a second time for practice
- **D.** o Connect the model to ADO

Q3029 · Multiple Choice

Which T&Q resource should be shared with the customer at or before Session Zero?

- **A.** ■ **T&Q Planning App Data Prep Workbook V2.0**
- **B.** o Configurator CloudWorks Case Study Handout
- **C.** o T&Q Application Extension Estimation Template
- **D.** o TnQ Extension Suggestions

Q3030 · Multiple Choice

The CloudWorks Case Study Handout is used in the workshop as:

- **A.** o The platform integration tool for connecting Anaplan to AWS
- **B.** o A replacement for the configurator
- **C.** o A glossary of T&Q technical terms
- **D.** ■ **The reference scenario used throughout the configurator and post-gen labs**

Q3031 · True / False

True or False: Account-segment inputs used in T&Q for territory carving and the Rule Engine are typically pulled directly from the CRM, bypassing the Account Segmentation & Scoring app.

- **T.** o True
- **F.** ■ **False**

Q3032 · Multiple Choice

Which T&Q extension typically adds the MOST complexity because it introduces a new model dimension?

- **A.** o Custom Ramp Profiles
- **B.** o Renaming a line item
- **C.** ■ **Revenue Target by Product Line**
- **D.** o Additional Scenario Management

Account Segmentation & Scoring

Q3033 · Multiple Choice

What is the primary purpose of the "1.01 Data Hub Setup" step in the T&Q Configurator?

- **A.** o Choose which Anaplan workspaces will host the generated model
- **B.** o Define the rep-level quotas before generation
- **C.** ■ **Configure the connection to the upstream data source(s) that feed the T&Q model**
- **D.** o Set the time horizon for the territory plan

Q3034 · Multiple Choice

In T&Q, which module is responsible for cascading top-down targets through the territory hierarchy?

- **A.** o SYS Account Assignment
- **B.** ■ **SYS Target Allocation**
- **C.** o SYS Territory Quota
- **D.** o SYS Resource Assignment

Q3035 · Multiple Choice

In T&Q, what information must be captured for a sales rep's resource assignment to be valid?

- **A.** o Rep, territory, and quota amount
- **B.** o Rep, territory, quota amount, and tenure
- **C.** o Just the rep's name and territory
- **D.** ■ **Rep, territory, and assignment percentage with effective dates**

Q3036 · Multiple Choice

Which T&Q quota type captures "new business" only (excluding renewals)?

- **A.** o Pipeline target
- **B.** o ARR target
- **C.** ■ **NNACV (Net New ACV) target**
- **D.** o Total revenue target

Q3037 · Multiple Choice

What is the typical time granularity for rep quotas in T&Q?

- **A.** ■ **Monthly or quarterly**
- **B.** o Weekly
- **C.** o Daily
- **D.** o Annual only

Q3038 · Multiple Choice

In T&Q, what does the "Enable for Calculations" flag on an attribute control?

- **A.** o Whether the attribute appears in UX pages
- **B.** o Whether the attribute can be edited by reps
- **C.** o Whether the attribute syncs to Salesforce
- **D.** ■ **Whether the attribute is included in downstream calculations and rules**

Q3039 · Multiple Choice

What dimensional structure is recommended for a customer's T&Q territory hierarchy?

- **A.** ■ **Multi-level composite hierarchy matching the customer's GTM structure**
- **B.** o Time-versioned single level
- **C.** o Flat list with no levels
- **D.** o Two-level (territory and region) only

Q3040 · Multiple Choice

In T&Q, what is the cleanest way to handle territory boundary changes that take effect mid-year?

- **A.** o Re-run the entire configurator at mid-year
- **B.** o Manually adjust each affected rep's quota
- **C.** o Create a parallel territory hierarchy for the new boundaries
- **D.** ■ **Use effective-dated resource assignments to reflect the change at the boundary date**

Q3041 · Multiple Choice

In a typical T&Q implementation, account-to-territory assignment most often comes from:

- **A.** ■ **The Account Segmentation app or upstream CRM data**
- **B.** o The Capacity Planning app
- **C.** o Direct entry into T&Q by territory managers
- **D.** o A manual spreadsheet maintained by Sales Ops

Q3042 · Multiple Choice

Which downstream system most commonly consumes T&Q quota outputs as the basis for commission calculations?

- **A.** o Anaplan Workforce Planning (OWP)
- **B.** ■ **Incentive Compensation Management (ICM)**
- **C.** o Salesforce Forecast module
- **D.** o Anaplan Sales Forecasting

Q3043 · Multiple Choice

Which T&Q configurator step typically defines the Quota Types the customer needs to track?

- **A. ■ 1.06 Target and Allocation**
- **B.** o 1.09 Rule Engine
- **C.** o 1.02 Hierarchy Setup
- **D.** o 1.01 Data Hub Setup

Q3044 · True / False

True or False: The T&Q answer-key appendix is designed to show what each configurator step's output should look like once complete.

- **T. ■ True**
- **F.** o False

Go-to-Market Capacity Planning

Q3045 · True / False

True or False: T&Q's territory hierarchy must always have exactly three levels (Region → Sub-Region → Territory) for the configurator to generate correctly.

- **F. ■ False**
- **T.** o True

Q3046 · Multiple Choice • Select multiple

Which of the following are T&Q modules directly involved in calculating the rep quota pipeline that flows to downstream ICM? (Select 3)

- **A.** o SYS Account Assignment
- **B. ■ SYS Territory Quota**
- **C. ■ Calc Quota by Quota Types**
- **D. ■ SYS Resource Assignment**
- **E.** o CoModeler
- **F.** o DCA modules

Q3047 · Multiple Choice • Select multiple

Which of the following are common T&Q implementation extensions partners deliver? (Select all that apply)

- **A. ■ Custom Ramp Profiles**
- **B.** o Salesforce Connector swap-out
- **C.** o Forecaster engine replacement
- **D. ■ Revenue Target by Product Line**
- **E. ■ Multi-Currency Forecasting**
- **F. ■ ICM Integration**

Q3048 · Multiple Choice • Select multiple

Which of the following directly drive the quota calculated for a rep on a given territory? (Select 4)

- **A. ■ Quota Type (NNACV, Pipeline, etc.)**
- **B. ■ Ramp Factor (tenure-based)**
- **C.** ○ The rep's CRM forecast category
- **D.** ○ Number of accounts in the territory
- **E. ■ Base Target from top-down allocation**
- **F. ■ Assignment percentage (effective-dated)**
- **G.** ○ The customer's industry vertical

Q3049 · Multiple Choice • Select multiple

Which of the following changes typically require re-running the T&Q configurator (as opposed to being handled as an extension)? (Select 3)

- **A.** ○ Adding a new rep to the resource assignment
- **B. ■ Toggling the multi-currency configuration**
- **C. ■ Changing the number of hierarchy levels on a dimension**
- **D.** ○ Updating a quota target value for an existing rep
- **E.** ○ Renaming an existing module
- **F.** ○ Adding a new ramp profile
- **G. ■ Adding a new top-level standard dimension**

Q3050 · Multiple Choice • Select multiple

Which of the following are downstream consumers of T&Q outputs in a typical RPM implementation? (Select 3)

- **A.** ○ Account Segmentation & Scoring
- **B. ■ CRM (territory assignments written back to Salesforce)**
- **C. ■ Sales Forecasting (Leaderboard attainment denominator)**
- **D. ■ Incentive Compensation Management (ICM)**
- **E.** ○ Anaplan Workforce Planning (OWP)
- **F.** ○ Customer's data warehouse

Q3051 · Multiple Choice • Select multiple

Which of the following documents should partners share with the customer at or before Session Zero? (Select 3)

- **A.** ○ Forecaster Algorithm Selection Guide
- **B. ■ Configurator CloudWorks Case Study Handout**
- **C.** ○ ICM Integration Manual
- **D.** ○ Capacity Implementation Guide
- **E. ■ T&Q Planning App Data Prep Workbook V2.0**
- **F. ■ Discovery Template — T&Q V3**

Q3052 · Multiple Choice

What is the core question that the Account Segmentation app answers?

- **A.** ○ How many reps do we need next quarter
- **B.** ■ **Which segment does each account belong to, and why**
- **C.** ○ Which deals are most likely to close
- **D.** ○ What is each rep's quota

Q3053 · Multiple Choice

Account Segmentation supports two segmentation methods. They are:

- **A.** ○ Manual and Automated
- **B.** ■ **Rule-Based and Score-Based**
- **C.** ○ Internal and External
- **D.** ○ Top-down and bottom-up

Q3054 · True / False

True or False: In Rule-Based segmentation, accounts matching explicit attribute criteria are assigned to a segment.

- **T.** ■ **True**
- **F.** ○ False

Q3055 · Multiple Choice

In Score-Based segmentation, what determines an account's segment assignment?

- **A.** ○ The account's geographic location alone
- **B.** ■ **A numeric score that maps to a segment band**
- **C.** ○ A random number generator
- **D.** ○ The account's industry alone

Q3056 · Multiple Choice

Score-Based segmentation is typically used as:

- **A.** ○ A pricing engine
- **B.** ○ A complete replacement for rule-based segmentation
- **C.** ○ A scoring system for sales reps' performance
- **D.** ■ **A catch-all for accounts that don't cleanly match any explicit rule**

Q3057 · True / False

True or False: Segment outputs from the Segmentation app flow directly into both T&Q (for territory carving) and Capacity Planning (for coverage ratios).

- **T.** ■ **True**
- **F.** ○ False

Q3058 · Multiple Choice

Changes in account segmentation typically have what effect on Capacity Planning?

- **A.** ○ Force a full re-implementation of Capacity
- **B.** ■ **Change headcount requirements because segment counts drive coverage ratios**
- **C.** ○ No effect; the two apps are fully independent
- **D.** ○ Increase the number of available sales scenarios

Q3059 · Multiple Choice

Beyond the segment attribute per account, what other key output does Account Segmentation produce?

- **A.** ■ **Wallet size / addressable spend per account**
- **B.** ○ Pipeline coverage ratio
- **C.** ○ Ramp profile per role
- **D.** ○ Quota per rep

Sales Forecasting (incl. AI Prediction Lab)

Q3060 · True / False

True or False: The Account Segmentation app provides a sandbox for designing CRM data structures and Salesforce object hierarchies.

- **T.** ○ True
- **F.** ■ **False**

Q3061 · Multiple Choice

"Segment inflow/outflow analysis" in the Segmentation app refers to:

- **A.** ○ The volume of CRM data flowing in via ADO
- **B.** ■ **A comparison of current segmentation against the prior segmentation**
- **C.** ○ The number of new accounts created each quarter
- **D.** ○ The pipeline movement between sales stages

Q3062 · Multiple Choice

Which dimension is required across the Segmentation model for the app to function?

- **A.** ■ **Account hierarchy**
- **B.** ○ Product hierarchy
- **C.** ○ Time only
- **D.** ○ Sales role hierarchy

Q3063 · True / False

True or False: Segment counts have no impact on Capacity Planning — coverage-ratio calculations in Capacity are computed independently from headcount data only.

- **T.** o True
- **F.** ■ **False**

Q3064 · Multiple Choice

In Segmentation, what is a "wallet" in the context of wallet-size estimation?

- **A.** ■ **The total addressable spend a customer could direct to your category of products**
- **B.** o A customer's annual revenue
- **C.** o A customer's bank account balance
- **D.** o The amount allocated for marketing spend

Q3065 · Multiple Choice

A score-based segmentation typically uses what kind of inputs?

- **A.** ■ **A weighted combination of firmographic, behavioral, and engagement attributes**
- **B.** o Only firmographic attributes (industry, size)
- **C.** o Only intent data from third-party sources
- **D.** o Manual ranking by Sales Ops only

Q3066 · Multiple Choice

How is the "Strategic" segment most commonly defined in Account Segmentation?

- **A.** o Accounts with the most pipeline in the current quarter
- **B.** o All accounts above a fixed annual revenue threshold (e.g. $1B)
- **C.** ■ **Accounts in a top wallet-size band that also match the highest-priority attribute criteria**
- **D.** o Accounts personally flagged by the CEO

Q3067 · Multiple Choice

What does "segment inflow/outflow analysis" tell you?

- **A.** o Sales rep movement between teams
- **B.** o Pipeline movement between sales stages
- **C.** ■ **Which accounts have moved between segments between segmentation runs**
- **D.** o How many new accounts were created in the period

Q3068 · Multiple Choice

How frequently do most customers refresh their account segmentation?

- **A.** o Annually only
- **B.** o Daily
- **C.** ■ **Quarterly or annually, with mid-period overrides as needed**
- **D.** o In real time on every CRM update

Q3069 · Multiple Choice

Why is the GTM hierarchy sandbox feature of Segmentation valuable?

- **A.** o It connects directly to Incentive Compensation Management
- **B.** o It exports segmented data directly to the data warehouse
- **C.** ■ **It lets Sales Ops test alternative segment definitions before committing them**
- **D.** o It generates marketing email lists from segmented accounts

Q3070 · Multiple Choice • Select multiple

Which of the following are core outputs of the Account Segmentation & Scoring app? (Select 3)

- **A.** o Rep-level quota assignment
- **B.** o Pipeline coverage ratio
- **C.** o Ramp profile per role
- **D.** ■ **Wallet size / addressable spend per account**
- **E.** ■ **Segment inflow/outflow analysis**
- **F.** ■ **Segment attribute per account**

Q3071 · Multiple Choice • Select multiple

Which of the following are typical attributes used in score-based account segmentation? (Select 3)

- **A.** ■ **Annual revenue / size band**
- **B.** ■ **Industry vertical**
- **C.** o Sales rep tenure
- **D.** o Anaplan workspace size
- **E.** o Pipeline value last quarter
- **F.** ■ **Account engagement / activity signal**

Q3072 · Multiple Choice • Select multiple

When account segmentation is refreshed, which of the following downstream outputs change as a consequence? (Select 4)

- **A.** ■ **Capacity Planning coverage ratios per segment**
- **B.** ■ **Account potential value seen on the Sales Forecasting Accounts page**
- **C.** o Salesforce User records
- **D.** o Closed-won opportunity records in CRM
- **E.** o Workshop knowledge-check question bank
- **F.** ■ **T&Q territory carving (segments as account attributes)**
- **G.** ■ **Account-level wallet sizes**

Q3073 · Multiple Choice

Capacity Planning's core question is:

- **A.** ○ What is each rep's quota
- **B.** ○ Which accounts are most strategic
- **C.** ○ How accurate is our forecast
- **D.** ■ **Do we have enough headcount, with the right ramp, to cover the plan**

Q3074 · Multiple Choice

The "holy grail" Capacity demo moment is:

- **A.** ○ Running CoModeler for the first time
- **B.** ○ Showing the Application Framework versions screen
- **C.** ■ **Telling a VP of Sales Finance "hire 2 AEs in January, 3 in April — here's when you close the revenue gap"**
- **D.** ○ Connecting the model to Salesforce

Q3075 · True / False

True or False: Capacity Planning supports different ramp profiles for different sales roles.

- **T.** ■ **True**
- **F.** ○ False

Q3076 · Multiple Choice

Which Capacity Planning extension typically requires connecting to a separate Anaplan application?

- **A.** ○ Custom Ramp Profiles
- **B.** ■ **OWP Integration**
- **C.** ○ Segmentation Auto-Sync
- **D.** ○ Additional Scenario Management

Q3077 · Multiple Choice

What does OWP stand for in the Capacity Planning context?

- **A.** ■ **Operational Workforce Planning**
- **B.** ○ Open Workforce Pipeline
- **C.** ○ Optimized Workforce Plan
- **D.** ○ Anaplan Workforce Planning

Q3078 · True / False

True or False: The Capacity Planning base offering provides five ramp profiles, and adding more is treated as a medium-sized extension.

- **T.** ○ True
- **F.** ■ **False**

Q3079 · Multiple Choice

"Custom Cost Modeling" in Capacity adds what to the financial picture?

- **A.** o CRM license cost
- **B.** ■ **Fully-loaded cost per hire (base + benefits + equipment + recruiting cost)**
- **C.** o Workspace cost optimization
- **D.** o Configurator licensing cost

Q3080 · Multiple Choice

The default Capacity configurator fixes the number of scenarios at which point?

- **A.** o Runtime, dynamically based on user input
- **B.** o Quarterly, via a scheduled job
- **C.** o Compile time
- **D.** ■ **Generation time, with adding more scenarios post-gen treated as an extension**

Q3081 · True / False

True or False: Capacity Planning has more common extensions than T&Q, mostly small in size and quick to deliver.

- **T.** o True
- **F.** ■ **False**

Q3082 · Multiple Choice

Which discovery question carries the highest priority when scoping a Capacity Planning project?

- **A.** o Whether CoModeler is enabled on the tenant
- **B.** o Which CRM the customer is currently using
- **C.** ■ **Who sets the top-down headcount budget — Finance, Sales Leadership, or both — and at what geographic level**
- **D.** o Whether the customer uses Slack or Teams

Q3083 · Multiple Choice

"Revenue Target by Product Line" is a Medium-sized Capacity extension. What makes it Medium?

- **A.** o It requires CoModeler access
- **B.** o Finance always pays for it
- **C.** o It requires modifying the configurator
- **D.** ■ **It requires adding a product dimension to revenue target and coverage modules**

Q3084 · True / False

True or False: Capacity Planning natively handles position management (open headcount positions tied to org structure), so a customer's choice between position-based and people-based planning does not change how Capacity is configured or extended.

- **T.** o True
- **F.** ■ **False**

Q3085 · Multiple Choice

"Segmentation Auto-Sync" is a small Capacity extension that does what?

- **A.** o Renames the Capacity app to "Segmentation"
- **B.** o Replaces Capacity with the Segmentation app entirely
- **C.** o Generates a brand-new app from the configurator
- **D.** ■ **Automates the segment-count feed from Segmentation to Capacity coverage ratios via ADO**

Q3086 · Multiple Choice

"Actual hire dates vs. planned hire dates" data is required to enable which Capacity feature?

- **A.** o Renaming dimensions
- **B.** o Configurator initial setup
- **C.** ■ **Meaningful AOP snapshot comparison**
- **D.** o ADO connectivity

Q3087 · Multiple Choice

What is the primary purpose of "ramp profiles" in Capacity Planning?

- **A.** o Modeling sales rep attrition rates
- **B.** o Tracking promotions through the sales hierarchy
- **C.** o Forecasting commission payouts
- **D.** ■ **Modeling the time it takes a new hire to reach full productivity**

Q3088 · Multiple Choice

In Capacity Planning, what does "coverage ratio" describe?

- **A.** o The percentage of territories that have rep quota assignments
- **B.** ■ **The ratio of sales reps assigned to a segment relative to the account count in that segment**
- **C.** o The ratio of sales reps to managers in the hierarchy
- **D.** o The percentage of pipeline covered by closed-won deals

Q3089 · Multiple Choice

Why does Capacity Planning need actual hire dates (not just planned ones)?

- **A.** o For onboarding workflow triggers
- **B.** ■ **For the AOP snapshot comparison — tracking planned vs actual hiring against forecast**
- **C.** o For badge and system access provisioning
- **D.** o For payroll system integration

Q3090 · Multiple Choice

Which input typically drives the bottoms-up hiring plan in Capacity Planning?

- **A.** o HR's annual budget submission to Finance
- **B.** ■ **Territory- or team-level manager input on required headcount**
- **C.** o Marketing's MQL forecast for the year
- **D.** o The CEO's annual planning kickoff memo

Q3091 · Multiple Choice • Select multiple

Which of the following are required inputs to Capacity Planning? (Select 4)

- **A.** ■ **Sales hierarchy with employees at the leaf**
- **B.** o Salesforce Connector configuration
- **C.** o Anaplan Prediction confidence levels
- **D.** ■ **Role-based ramp profiles**
- **E.** ■ **Coverage ratios by segment**
- **F.** o Closed-won opportunity history
- **G.** ■ **Top-down revenue or NNACV targets**

Cross-app & Reference

Q3092 · Multiple Choice • Select multiple

Which of the following are properties of a sales rep ramp profile in Capacity Planning? (Select 3)

- **A.** ■ **Productivity percentage per month of tenure**
- **B.** o The rep's quota for the year
- **C.** ■ **Role-specific (different ramps per sales role)**
- **D.** o Account count assigned to the rep
- **E.** ■ **Duration (in months) until full productivity**
- **F.** o The rep's territory assignment

Q3093 · Multiple Choice • Select multiple

Which of the following changes typically require regenerating the Capacity Planning app via the configurator (vs. being handled as a routine data update)? (Select 3)

- **A.** ■ **Adding a new sales role with a distinct ramp profile**
- **B.** o Updating individual rep hire dates
- **C.** o Adjusting Q3 quota targets in the dataset
- **D.** ■ **Changing the role hierarchy structure**
- **E.** ■ **Toggling whether to use Anaplan Workforce Planning (OWP) integration**
- **F.** o Adding a new account to the data hub

Q3094 · Multiple Choice

Sales Forecasting V1 is delivered as:

- **A.** ■ **A templated application via the Anaplan Application Framework**
- **B.** o A blank model the customer builds from scratch
- **C.** o A Salesforce AppExchange package
- **D.** o A per-implementation configurator UI like T&Q

Q3095 · Multiple Choice

Sales Forecasting supports three user types. They are:

- **A.** ■ **Sales representatives, Sales managers, RevOps leaders**
- **B.** o Sales rep, Sales VP, Anaplan Admin
- **C.** o AE, Manager, RevOps Engineer
- **D.** o Configurator, Generator, Implementer

Q3096 · Multiple Choice

How many top-level pages does the Sales Forecasting application have?

- **A.** o 22
- **B.** o 5
- **C.** o 3
- **D.** ■ **6**

Q3097 · Multiple Choice

Which Sales Forecast sub-page is the rep / manager-facing AI baseline comparison view?

- **A.** o Opportunities
- **B.** o Forecast
- **C.** ■ **Anaplan Prediction**
- **D.** o Scenarios

Q3098 · True / False

True or False: The Anaplan Prediction — Sales Ops page is where Sales Ops chooses which algorithm and confidence level the organization runs on.

- **T.** ■ **True**
- **F.** o False

Q3099 · Multiple Choice

The Scenarios sub-page enforces a cascading inclusion rule across the three scenarios. What is it?

- **A.** ■ **Worst ⊆ Most Likely ⊆ Best (inclusion cascades upward)**
- **B.** o Worst = Most Likely = Best (the three scenarios are identical)
- **C.** o The three scenarios are completely independent of each other
- **D.** o Best ⊆ Most Likely ⊆ Worst (inclusion cascades downward)

Q3100 · Multiple Choice

The Sales Forecasting V1 reference integration is built around which CRM?

- **A.** o Microsoft Dynamics
- **B.** o NetSuite
- **C.** ■ **Salesforce**
- **D.** o HubSpot

Q3101 · Multiple Choice

Which list correctly names algorithms in the Forecaster panel surfaced in Sales Forecasting V1?

- **A.** o Random Forest, KNN, SVM, AdaBoost
- **B.** ■ **ETS, SARIMAX, Prophet, TimesFM, LightGBM, MULR/MVLR, DeepAR**
- **C.** o Decision Tree, Logistic Regression, Naive Bayes
- **D.** o BERT, GPT, Llama, Mistral

Q3102 · True / False

True or False: P1 / P2 / P3 in the Forecaster context are confidence-interval percentile bands, where P1 is the tightest (narrowest) band and P3 is the widest (most cautious).

- **T.** ■ **True**
- **F.** o False

Q3103 · Multiple Choice

What is the two-step Sales Ops workflow to override the active forecasting methodology?

- **A.** o Click Generate, then Deploy
- **B.** ■ **Select an algorithm in Override Algorithm, then select a confidence level in Override Confidence Level**
- **C.** o Click Rebuild, then Publish
- **D.** o Click Reset, then Retrain

Q3104 · Multiple Choice

Which Sales Forecasting KPI directly compares Anaplan model accuracy vs. the manual forecast?

- **A.** o Forecast Call
- **B.** o Day-1 Forecast
- **C.** o Anaplan Prediction Methodology Applied
- **D.** ■ **Prediction Variance Comparison**

Q3105 · True / False

True or False: Anaplan Prediction's confidence interval width is a fixed parameter Sales Ops sets manually during model training — wider settings produce more cautious forecasts.

- **T.** o True
- **F.** ■ **False**

Q3106 · Multiple Choice • Select multiple

Which of the following are top-level pages in the Sales Forecasting application? (Select 6)

- **A. ■ Sales Insights**
- **B. ■ Sales Pipeline**
- **C. ■ Sales Overlays**
- **D.** o Configurator
- **E. ■ Homepage**
- **F. ■ Sales Forecast**
- **G.** o Forecaster Configuration
- **H.** o Anaplan Way
- **I. ■ Sales Accounts**

Q3107 · Multiple Choice • Select multiple

Which of the following are the five sub-pages under the Sales Forecast top-level page in Sales Forecasting? (Select 5)

- **A. ■ Forecast**
- **B.** o Channels
- **C.** o Hygiene
- **D. ■ Opportunities**
- **E. ■ Anaplan Prediction — Sales Ops**
- **F. ■ Anaplan Prediction**
- **G.** o Leaderboard
- **H. ■ Scenarios**
- **I.** o Accounts

Q3108 · True / False

True or False: Inter-app data flows in the RPM suite include T&Q quotas flowing into Sales Forecasting as the attainment denominator on the Leaderboard.

- **T. ■ True**
- **F.** o False

Q3109 · Multiple Choice

Where in the RPM workshop navigation does the "Inter-App Data Flows" reference page live?

- **A. ■ Reference**
- **B.** o Getting Started
- **C.** o Territory & Quota
- **D.** o Sales Forecasting

Q3110 · True / False

True or False: The "Common Extensions" page in each RPM app track catalogs typical customizations with size estimates (S / M / L) to help scope projects.

- **T.** ■ **True**
- **F.** o False

Q3111 · Multiple Choice

Which inter-app dependency is correct?

- **A.** o Sales Forecasting reads ramp profiles from T&Q
- **B.** o Capacity Planning publishes quotas to T&Q
- **C.** ■ **Sales Forecasting reads rep-level quotas from T&Q and account segments / potential values from Segmentation**
- **D.** o Segmentation publishes quotas to Sales Forecasting

Q3112 · True / False

True or False: "Discovery questions" in each app's Common Extensions page are color-coded — red for highest priority, yellow for medium, green for nice-to-have — to mark which to ask first in scoping conversations.

- **T.** o True
- **F.** ■ **False**

Q3113 · Multiple Choice

Within the Application Framework "Create Application" dialog, which categories of objects can be packaged into a single application?

- **A.** ■ **Models, UX apps, Workflows, Data Orchestrator, Assets, Analyst, System data**
- **B.** o Models and UX apps only
- **C.** o Models, Workflows, Assets
- **D.** o Workflows only

Q3114 · True / False

True or False: The Forecaster output should be positioned to customers as a baseline / coaching signal, not as an automatic override of rep commits, because automatic overrides collapse rep trust in the app.

- **T.** ■ **True**
- **F.** o False

Q3115 · Multiple Choice

Which sequence best reflects the typical inter-app data flow in the RPM suite?

- **A.** ■ **Segmentation → T&Q → Capacity → Sales Forecasting**
- **B.** o Capacity → Sales Forecasting → Segmentation → T&Q
- **C.** o T&Q → Capacity → Segmentation → Sales Forecasting
- **D.** o Sales Forecasting → T&Q → Segmentation → Capacity

Q3116 · Multiple Choice

The Anaplan Data Orchestrator (ADO) is the recommended replacement for what older RPM integration pattern?

- **A.** ○ Email-based file transfer to the customer
- **B.** ○ Excel exports between Anaplan workspaces
- **C.** ○ Direct Salesforce API calls from each Anaplan model
- **D.** ■ **Custom-built data hub models that other models read from**

Q3117 · Multiple Choice

Where in the RPM workshop site can you find the catalog of source documents (PPTs, Data Prep Workbooks, Implementation Guides)?

- **A.** ○ Inter-App Data Flows
- **B.** ○ Workshop Wrap-up
- **C.** ■ **Resources & Downloads**
- **D.** ○ Q&A from Sessions

Q3118 · Multiple Choice • Select multiple

Which of the following are applications in the RPM Apps suite? (Select 4)

- **A.** ○ Operational Workforce Planning (OWP)
- **B.** ○ Demand Planning
- **C.** ■ **Sales Forecasting**
- **D.** ■ **Go-to-Market Capacity Planning**
- **E.** ○ Integrated Financial Planning (IFP)
- **F.** ■ **Territory & Quota**
- **G.** ■ **Account Segmentation & Scoring**

Q3119 · Multiple Choice • Select multiple

Which of the following are common data sources the Anaplan Data Orchestrator (ADO) connects into the RPM apps? (Select 4)

- **A.** ■ **External market data feeds**
- **B.** ■ **Salesforce (or other CRM)**
- **C.** ■ **HRIS for sales hierarchy data**
- **D.** ■ **Customer ERP for account / financial data**
- **E.** ○ Microsoft Teams chat history
- **F.** ○ GitHub issue tracker
- **G.** ○ Customer's Google Analytics
